

GALLERY MINT MUSEUM

COLLECTOR'S UPDATE • AUGUST, 2003

ORDER 1792 BIRCH CENTS NOW

The fronts in the art of fine reproduction portray coins of 1792. The "Black-Oak" pattern coin (shown) after our master Robert Birch. Weighing in at 13gms and measuring 34.5mm, it was the largest US coin coin ever to be struck.

Another variety of the original coin

exists that includes President Washington's initials on the reverse side. These dies were rejected, and the concept of the large cent over the smaller of our current cent was adopted for US coinage, but struck on smaller, lighter planch than the Black-Oak.

Like the original coins, the GMM reproduction features a beveled edge that reads: "TO BE USED FOR THE USE OF THE PEOPLE."

The reproduction can be ordered now for \$20

1792
BIRCH
CENT

\$20

Shown here in its stage of the first coin. The reproduction from GMM can be pre-ordered now and delivered soon.

The dies should be completed by the time this mailing arrives and deliveries will follow shortly after.

It is necessary to move funds to quickly as possible in order to get the coin museum family under way. The museum project is totally funded through the sales of items produced from a GMM

and absolutely cannot happen without your support.

Coming next is a reproduction of the 1793 quarter dollar by Joseph Wright.

MUSEUM PROJECT UNDER WAY

YOUR SUPPORT IS NEEDED NOW

It is so great that we've been working toward building a working museum of numismatic technology under the auspices of Gallery Mint Museum as 1992. We have recently designed a new facility which is actually the first phase in the total museum structure. The task now is, the task is ready to go.

The big question now is, do we really have the support of the numismatic community? It takes a while to build a museum and finally the "money" we need has been raised and we're well. We have to sell it to potential collectors. If we can't sell enough, we can't build the museum. It's that simple. We have a lot of money on hand, and we need to expand into the new building to house the coin museum's job of preserving and presenting our coin and numismatic art in a strictly commercial enterprise.

WWW.GALLERYMINT.COM IS UP AND RUNNING

What's it like as we stand to include you people and extend news to our museum program on a weekly basis. It's FINALLY ready going to happen. But only with your support to the three of a purchase.

Also, don't forget to visit the GMM homepage with you together by Victor Williams at www.gallerymint.com/coinmuseum.htm. This site is mainly devoted to Gallery Mint subjects, but has extensive coverage of coin-related by many numismatic magazines and some other private sites. Some add to this site very frequently and has a bank for turning up information on little known GMM coins.

DOE BROTHER WHERE ART THOU?

NEW DOE BROTHERS CD
NOW AVAILABLE

'You're in the Doe' is now available for \$15.95 each, postpaid.

The new Doe Brothers recording entitled *'You're in the Doe'* features Joe Reed on acoustic twelve string guitar and lead vocals. Ron Leach on mandolin and harmony vocals and Chuck Goodson on acoustic bass.

and fiddle. The CD features a wide range of musical styles done in the style of Doe.

This might explain why we haven't had a new place out in so long, but the CD is still well expected. After all, the Gallery Mill wouldn't exist without the Doe Bros. This

Members of the Doe Brothers. Left to right: Chuck Goodson, Joe Reed and Ron Leach.

songs include *Remember When the Rainbow, Nebraska, Sweet Ails Chalmers, Can I Find My Way Home, A Minor Swing, Legacy, Just a Rag, When It's Laughing Time in the Valley, El Comanchero, When the Fall Harvest Comes, Raylene James, The Ladies Everywhere's Talking, Hootin' and Boonin', Tappin' Honey and Rattles in the Doe.* The CDs are available for \$15 each, postpaid.

The group has been performing in NW Arkansas for the past ten years, and are regularly featured guests at the ANA summer seminar in Colorado Springs.

DO YOU WANT THE MUSEUM?

We have been working toward building the museum for more than ten years now, and have made quite a lot of progress toward that goal.

We currently have 18 screen presses in various stages of restoration: two die restorers before, several antique letter and title two-stage hydraulic presses, two two-stage joint presses, two from the San Francisco Mills, and an older version from the Denver Mills, and a

A recently restored screen press from the Denver Mills is ready to be set up for exhibit.

pile of wooden press frames to become a drop basement. Current are ornamental staff of moving machinery, and printing equipment, we've collected and built over the years.

It's obviously all there, but now we need to enter go to the goal. The next phase will cost over half a million dollars, and quite frankly, we are a bit far off when it comes to this kind of commitment.

without the full support of the community community.

So, it's up to you. Please make your vote for the museum in the form of a purchase of some sort. How everything we've made? Why not consider purchasing a small type set and donating it to your local school for educational purposes? Or, purchase an extra piece for a gift.

If each person in our mailing list made a twelve-dollar purchase, it would mean approximately \$15,000 in gross revenue for the project. Please go to the right thing and place your order today.

The job of wooden press will be quickly by automated into a major project. Investment needed in the study of the most.

LANDIS RECEIVES TOP HONORS FROM ANA

The Paramount Air Award for Excellence in Medallic Sculpture had been awarded this year to GMM engraver Ron Leach. Gail Baker, Ron's long time friend and supporter, accepted the award for Leach, who was unable to attend due to prior commitments. The gold medal was presented August 2, 2000 at the American Numismatic Association awards banquet held at Baltimore, Maryland. This was the third year Ron was nominated for the prestigious award.

**BUY A "COIN" AND
MAKE A "MINT"**

We're stacked to ceiling with screw presses, mills, lathe, and assorted antique machinery destined to go on display in the permanent Museum facility. The big question now is: do we have enough support from the numismatic community to fund the effort? It's time either go or not go.
